Environmental and Transport Systems (CBET)

Division of Chemical, Bioengineering, Environmental,
and Transport Systems (CBET)
National Science Foundation
4201 Wilson Boulevard, Room 565 S
Arlington, Virginia 22230

This presentation will describe funding of biosensors-related research at the National Science Foundation. It will start by providing an overview of divisions and programs at the NSF where an applicant may consider submitting proposals for biosensing related research. Subsequently, presentation will focus on the biosensing activities of Engineering Directorate and the Nano-biosensing program within this directorate. This presentation will be particularly useful to early career researchers in the field of biosensors.
